# TADIRAN TELECOM TELEPHONES

TadiranTelecom

POLYCOM®
TECHNOLOGY

# Tadiran Telecom P-335

**Two-line, entry-level phone providing unparalleled HD Voice technology and advanced telephony features**

TadiranTelecom

### Benefits

- HD Voice – Unparalleled voice clarity to make your calls more efficient and productive

- Broad and Robust Interoperability – Designed to work with a broad range of Tadiran telecommunication platforms to enable easy setup, customization, use and support

- High-Quality Display – High resolution graphical 102 x 33 pixel grayscale LCD with adjustable backlighting

- Advanced Telephony Features – Two lines, support of share line presence, three-way local conferencing, and built-in XML microbrowser

# Tadiran Telecom P-450

**Three-line, desktop phone featuring HD Voice and productivity enhancing applications through a high-resolution, graphical backlit display**

### Benefits

- HD Voice – Unparalleled voice clarity to make your calls more efficient and productive

- Broad and Robust Interoperability – Designed to work with a broad range of Tadiran telecommunication platforms to enable easy setup, customization, use and support

- High-Quality Display – High resolution graphical 256 x 116 pixel grayscale LCD with adjustable backlighting, applications and Asian character support

- Applications Enabled – Built-in XML micro-browser to run our Productivity Suite and open API for productivity-enhancing third-party applications

# Tadiran Telecom P-560

**Unrivaled voice experience and ease of provisioning and upgrade in a four-line SIP phone**

### Benefits

Unparalleled Sound Quality – HD Voice technology enables rich, clear, life-like voice communications

**Advanced Features & Applications**
- Four lines
- Backlit 320 x 160-pixel graphical grayscale LCD
- Shared call/bridged line appearance
- Busy lamp field (BLF)
- Presence, buddy lists
- XHTML micro-browser for productivity boosting Web applications
- Gigabit Ethernet support

**Ease of Provisioning and Upgrade**
- Integrated IEEE 802.3af Power over Ethernet (PoE) support
- Remote, zero-touch provisioning with support of a variety of protocols including FTP, TFTP, HTTP, or HTTPS
- Dual-port Gigabit Ethernet switch for flexible deployment options and lower cabling expenses

POLYCOM® TECHNOLOGY

# Tadiran Telecom P-670

**Delivering a rich voice, visual and application experience in a six-line phone**

## Benefits

### A Rich Visual Experience
Large, vibrant color display enables easier viewing and navigation, plus integration with productivity-enhancing applications and business processes

### HD Voice
Unparalleled voice clarity to make your calls more efficient and productive Gigabit Ethernet Support Future-proofs network infrastructure investment

### Expandability
Supports up to three IP Color Expansion Modules for an attendant console application

### Broad and Robust Interoperability
Designed to work with a broad range of Tadiran telecommunication platforms to enable easy setup, customization, use and support

# Tadiran Telecom P-670xm

**The P-670xm Color Expansion Module enhances telephone attendant productivity with a vibrant color user interface and advanced call handling capabilities**

**Increased Productivity** – The P-670-xm Color Expansion Module provides productivity-enhancing, advanced call handling capabilities:

**Robust Call Handling** – 34 line registrations and 24 concurrent calls
- Caller IDs
- Shared call appearances

**Ease of Installation and Setup** – Virtually no installation or setup is required, as signaling and powering are provided by the host phone. It's plug and play. Just snap on the Color Expansion Module and it works

POLYCOM®
TECHNOLOGY

# VVX 1500

**The first six-line, business media phone combining advanced IP telephony, one-touch video, and business applications into a seamless, life-like experience**

### Benefits

**Simple and Fast One-Touch Calls**
Access voice, video, applications and Web content with a single touch

**Quick Payback**
Lower travel expenses. Empower each employee for the cost of one business trip

**Highly Customizable**
The API enables third-party applications for horizontal and vertical markets

**Enhanced Productivity**
Integrate communications into business processes delivering faster decision making

**Reduced Carbon Footprint**
Require less than half the power of similar products. Designed for lower power consumption using energysaving PoE and smart motion detection technology.

# IP-5000

**Advanced IP conference phone with HD Voice clarity, designed for small conference rooms and executive offices**

### Benefits

HD Voice technology makes your conference calls sound amazingly clear and life-like

Patented technology delivers the best conference phone experience with no compromises

7-foot microphone pickup and a small footprint designed for executive offices and smaller conference rooms with up to 6 participants

The most feature-rich family of IP conference phones available, with advanced call handing, security, and provisioning features

Compatible with a broad array of SIP call platforms to maximize voice quality and feature availability while simplifying management and administration

High-resolution display enables robust call status, on-board configurability and multi-language support

Integrated Power over Ethernet (PoE) for easy installation. Optional AC Power Kit also available

Resists interference from mobile phones and other wireless devices while delivering clear voice conferencing with no distractions

# IP-6000

**Next Generation IP Conference Phone**

### Benefits

HD Voice technology for high-fidelity calls at up to 14 kHz – An industry first, an IP conference phone that sounds as natural as being there

Patented technology – delivering the best IP conference phone experience without compromise

12-foot (4-meter) microphone pickup – ideal for small to midsize conference rooms. Add even greater range with optional expansion microphones

Strong, robust SIP software – leveraging the most advanced SIP endpoint software in the industry, with advanced call handing, security, and provisioning features

Robust VoIP interoperability – Compatible with a broad array of SIP call platforms to maximize voice quality and feature availability while simplifying management and administration

Resists interference from mobile phones and other wireless devices while delivering clear voice conferencing with no distractions

High-resolution display – enables robust call information and multi-language support
